## EDUCATION

**2020-2024**
**University of Auckland**

- Software Engineering (Honours)
- GPA: 7.2

**2023**
**Korea University**

- Computer Science and Engineering
- Overseas Study Aborad

## EXTRACURRICULAR

**University of Auckland**

- Digital Exchange Ambassador
- WDCC (Web Development Consulting Club Member)
- ASPA (Auckland Student Pool Association Project Designer)
- SESA (Software Engineering Student Association Member)
- AKSA (Auckland Korean Student Association Member)

**Korea University**

- KUBA (Korea University Buddy Assistant)
- Korea Universtiy Archery Club Member
- King's Gambit Chess Club Member

## PROFILE

In my final year as a software engineering student, I excelled in dynamic environments, consistently pursuing new skills. My free time is dedicated to programming projects, showcasing my creativity and innovative approach. I prioritise effective teamwork, emphasising active communication and mutual reflection to foster collaboration. I am proficient in independent and team-based work and bring a strong drive for continual improvement to any project.

## WORK EXPERIENCE

**EY (Ernst & Young)** 11/2023 - 02/2024
Technology Consultant Intern (AI & Data)

- Developed Front End Prototype app using PowerApp
- Bulit New Data Bulk Upload Feature using PowerAutomate
- Conducted Functional Unit Testing via PowerBI
- Proficient in business communication and adept in using Microsoft Excel and PowerPoint.
- Completed Microsoft Azure 900 Fundamental Learning Program

**RisosEnterPrises Ltd** 12/2022 - 02/2023
Software Engineering Intern (Developer)

- Optimisation of Wave Reconstructed Python codes, improving speed by 10x for image processing
- Translated Full Version of Holopy MATLAB code, analysis and conversion to Python code
- Used multi core GPU processing code, to overcome the existing CPU processing code on propagator function
- Understand the basic principles of Machine learning for image detection level

**ScratchPad** 07/2022 - 01/2023
ICT Trainer (Technology Trainer)

- Taught the fundamentals of coding and high-level programming language such as Python or HTML to students aged 5 to 16
- Introduced the concepts of block coding to text coding skills and supervised Minecraft and Roblox modding code under the platform of Code Kingdom
- Lead a class of 8 to 14 students in online and onsite sessions.

## AWARDS & CERTIFICATION

**University of Auckland**

- LeanIX and SAP Signavio Certified (2024)
- Outstanding Achiever for COMPSCI 316 (2023)
- Faculty of Engineering Student Support Award (2022)
- 360 International Exchange Award (2022)
